

The following are requirements for your Biomedical Waste Generator Permit; which must be available in time for your inspection:

1. Copy of the **Florida Administrative Code Chapter 64E-16** should be part of your records and must be available to employees. Below is a link to the website to print a copy of this document:

[http://www.floridahealth.gov/healthy-environments/biomedical-waste/ documents/64E16_1.pdf](http://www.floridahealth.gov/healthy-environments/biomedical-waste/documents/64E16_1.pdf)

2. Copy of the **Written Operating Plan** which details how biomedical waste is managed at your facility. You can go to the following website to print a model Biomedical Waste Plan and then complete the blank information as it pertains to your facility:

[http://www.floridahealth.gov/healthy-environments/biomedical-waste/ documents/CurrentDisclaimer_08.pdf](http://www.floridahealth.gov/healthy-environments/biomedical-waste/documents/CurrentDisclaimer_08.pdf)

Instructions to complete your facility's written plan

1. Go to above website and print biomedical waste plan pages 1-9.
 2. Write Facility Name on the first page.
 3. Complete pages 4-7 with current facility information.
 4. You may use page 9 for employee signature page verifying that they have received annual biomedical waste training.
3. **Annual Biomedical Waste Training** for all staff handling biomedical waste. Training must be in compliance with FAC 64E-16 and your facility's operating plan. Below is a link to an online training video which meets the requirement for this training.
